PROFESSIONAL SUMMARY

Backend-focused B.Tech CSE Student (expected 2027) with hands-on experience in Java, Spring Boot, REST APIs, and JWT Authentication for backend development. Proficient in SQL, MySQL, PostgreSQL, and MongoDB. Solved 260+ DSA problems and seeking SDE-1 / Backend Developer opportunities.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, Python, C++

Backend: Spring Boot, REST APIs, JWT Authentication, React.js, Node.js, Express.js

Databases: MySQL, PostgreSQL, MongoDB

Tools: Git, GitHub, Postman, Maven, Docker, n8n

Core CS: OOP, Data Structures & Algorithms

PROJECTS

Virtual Laboratory Platform

Java, Spring Boot, MySQL, MongoDB, JWT

- Built a multi-tenant educational platform with Student, Teacher, and Admin role-based access control using Spring Boot and JWT authentication.
- Designed REST APIs, database schemas, and automated lab workflows including assignment, submission, and grading.

ConfigPilot — Low-Code Platform

React, Node.js, Express.js, PostgreSQL, JWT, Tailwind CSS

- Developed a schema-driven low-code platform that converts JSON configurations into dynamic forms and CRUD applications.
- Implemented JWT authentication and PostgreSQL-backed storage using a reusable backend architecture.

Java Multithreaded Web Server

Java, Socket Programming, ExecutorService

- Built a multithreaded HTTP server using Java Sockets and ExecutorService for concurrent client handling.
- Applied thread pooling and concurrency concepts to improve request processing and server throughput.

SpeakForge AI

React, Node.js, MongoDB, JWT

- Developed an AI-powered communication practice platform with real-time feedback and progress tracking.
- Implemented authentication, analytics dashboards, and API integrations using Node.js, Express.js, and MongoDB.

EXPERIENCE & TRAINING

Technical Trainee — DSA & Full Stack Development

Jan 2026 – Present

KCC Institute of Technology & Management

- Solved 260+ DSA problems across arrays, strings, linked lists, trees, and common interview patterns.
- Completed structured training in Java, Spring Boot, React.js, and software development practices through hands-on assignments and projects.

EDUCATION

B.Tech — Computer Science & Engineering

2023 – 2027

KCC Institute of Technology & Management | CGPA: 7.37 / 10.0

Class XII — BSEB — 70%

Class X — BSEB — 80%

ACHIEVEMENTS

- Solved 260+ DSA problems across LeetCode, HackerRank, CodeChef, and GeeksforGeeks.
- Participated in a 24-Hour Codethon organized by KCC Institute of Technology & Management.
- Built and maintained 15+ public repositories covering backend systems, DSA, and full-stack applications.
